INSTALLATION AND OPERATION

INSTALLATION NOTE

INSTALLATION AND OPERATION

CLEANING unplug the refrigerator

- To maintain proper refrigerator performace, the Condenser coil must be free of dust, dirt, and grease.
- This will require periodic cleaning.Condenser fins should be cleaned at least every three months(90days) or needed.

CLEAN THE GASKET

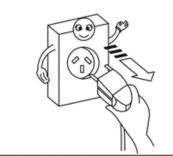

- Much grease, food wastes etc will destroy the surface of gasket, especially the bottom side!
- Please use the cloth with neutral detergent to wipe the gasket.

PRECAUTIONS

THE UNIT WITHOUT USE FOR A LONG TIME

- Please empty the refrigerator then unplug it.
- Please lock the door to prevent the man from entering the unit.

CLEANING THE INTERIOR AND EXTEROR

- Please clean the product with a soft damp cloth! When the product is too dirty ,please use the cloth with a little of neutral detergent!
- Pull out the shelves to clean!
- Be sure not to use thinner, oil, water, iron brush, abrading agent, hydrochloric acid and other things to clean

CHECK AFTER CLEANING

- Check the unit again for safety
- Check that the unit is operating properly.
- · Make sure both power and plug are normal.
- Please read the operation manual carefully before operating the product.
- Please make sure the product is well sealed.

2

Please place the product for a while to make it dry before use.

TRANSIT OR MOVE

- Please unplug the refrigerator before transit or move
- Please ask more people to work when the product is heavier.
- Please reread the manual after moving then use the unit.

INSTALLATION AND OPERATION

I

BEFORE REQUESTING SERVICE

If the product is abnormal in the course of use, check it as follows, if you can not solve the problem, please contact the after sale service, and provide product information(such as model, serial number etc.)

SYMPTOMS	CHECK AND SOLUTIONS
1.The unit does not refrigerate at all	 Check that the power cord and plug in correctly. Be sure the power cord is connected to the proper voltage. Be sure the power switch is turned on.
2. The unit does not refrigerate well.	 Be sure the temp setting is on the correct position. Check the partition of stored food. The unit door is opened too frequently or left open too long Be sure the unit is away from heater. The condenser isn't clean for a long time.
3. There is loud noise.	 The floor is uneven or the caster isn't set correctly. Be sure the unit is away from any other objects. Be sure nothing fall into the condensing unit.
4. There is peculiar smell.	 The smelled food isn't completely covered. Be sure the food is under guarantee. The unit isn't clean for a long time.

ONE YEAR WARRANTY

Turbo air warrants to the original purchaser of every new-Turbo air refrigerated unit, the cabinet and all parts thereof, to be free from defects in material or workmanship, under normal use and service, for a period of one (1) year from the date of original installation or 15 months after shipment date from Turbo air , whichever occurs first.

Any parts covered by this warranty that are examined and determined by Turbo air to have been defective within one (1) year of original installation or fifteen (15) months after shipment date from manufacturer, whichever occurs first, shall be repaired or replaced as stated below. Turbo air shall be deemed to have fully complied with its obligation under the foregoing warranties by electing either one of the following procedures, at the sole discretion of Turbo air.

1. Furnishing a replacement part, freight collect, in even exchange for the returned part, freight collect.

2. Receiving the defective part, freight collect; repairing it; and returning it, freight collect.

ADDITIONAL FOUR YEAR COMPRESSOR WARRANTY

In addition to the (1) one year warranty stated above, Turbo air warrants its hermetically and semi-hermetically sealed compressor to be free from defects in both material and workmanship under normal use and service for a period of four (4) additional years from the date of original installation but not to exceed five (5) years and three (3) months after shipment from manufacturer.

Compressors determined by Turbo air have been defective within this extended time period will, at Turbo air's option, be either repaired or replaced with a compressor or compressor parts of similar design and capacity.

The four (4) year extended compressor warranty applies only to hermetically and semi-hermetically sealed parts of the compressor and does not apply to any other parts or components, including, but not limited to, cabinet, paint finish, temperature control, refrigerant, metering device, driers, motor starting equipment, fan assembly any other electrical component, etc.

134A (404A) COMPRESSOR WARRANTY

The four year compressor warranty detailed above will be voided if the following procedure is not carefully adhered to:

- 1. This system contains R134A (R404A) refrigerant and polyol ester lubricant. The Poyol ester lubricant has rapid moisture absorbing qualities. If long exposure to the ambient conditions occur, the lubricant must be removed and replaced with new. Listed below are the approved lubricants for the Tecumseh compressors.
 - 1. ICI-Emkarate RL 184 2. Emery-2927-A 3. Mobile Artic 22A

Failure to comply with recommended lubricant specification will void the compressor warranty.

- Dryer replacement is very important and must be changed when a system is opened for servicing. Dryer must be used with XH-9 desiccant.
- 3. Micron level vacuums must be achieved to insure low moisture levels in the system. 500 microns or lower must be obtained.

WHAT IS NOT COVERED BY THIS WARRANTY

Turbo air's obligation under warranty is limited to either repair or replacement of parts, subject to the additional limitations below. This warranty neither assumes nor authorizes any person to assume obligations other than expressly covered by this warranty.

- 1. WARRANTY IS NOT TRANSFERABLE. This warranty is not assignable and applies in favor of the original purchaser/user to whom delivered. Any such assignment or transfer shall void the warranties herein made and shall void all warranties, express or implied, including any warranty of merchantability or fitness for a particular purpose.
- 2. NO CONSEQUENTIAL DAMAGES. Turbo air is not responsible for economic loss: profit loss or special, indirect, or consequential damages, including without limitation, losses or damages arising from food or product spoilage claims whether or not on account of refrigeration failure.
- 3. ALTERATION, NEGLECT, ABUSE, MISUSE, ACCIDENT, DAMAGE DURING TRANSIT OR INSTALLATION, FIRE, FLOOD, ACTS OF GOD. Trubo air is not responsible for the repair or replacement of any parts that Turbo Air determines have been subjected after the date of manufacture to alteration, neglect, abuse, misuse, accident, damage during transit or installation, fire, flood, or an Act of God.
- 4. NO IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. There are no other warranties, express, implied or statutory, except the one(1) year warranty and the additional four(4) year compressor warranty as described above. These warranties are exclusive and in lieu of all other warranties, including implied warranty and merchantability or fitness for a particular purpose. There are no warranties which extend beyond the description on the face hereof.
- 5. TRANSPORTATION COSTS. Turbo Air will accept parts covered under this warranty freight collect, provided that shipment has received prior approval. Turbo Air is not responsible for any other transportion costs, but will ship freight collect parts either repaired or replaced under these warranties.
- 6. WARRANTY CLAIMS. All claims should include: model number of the cooler, the serial number of the cabinet, proof of purchase, date of installation, and all pertinent information supporting the existence of the alleged defect. Any action or breach of these warranty provisions must be commenced within one (1) year after that cause of action has accused.
